Background

The FHWA's Buy America policy in 23 CFR 635.410 requires a domestic manufacturing process for any steel or iron products (including protective coatings) that are permanently incorporated in a Federal-aid construction project. The regulation also provides for a waiver of the Buy America requirements when the application would be inconsistent with the public interest or when satisfactory quality domestic steel and iron products are not sufficiently available. This notice provides information regarding FHWA's finding that a Buy America waiver is appropriate for use of non-domestic motor and machinery brake systems (maximum torque 100 ft-lb, wheel size 8 inches) for rehabilitation of a bascule bridge in Port Clinton, Ohio.

In accordance with Division K, section 122 of the Consolidated and Further Continuing Appropriations Act of 2015 (PL 113-235), FHWA published a notice of intent to issue a waiver on its Web site <http://www.fhwa.dot.gov/construction/contracts/waivers.cfm?id=121>) on March 22nd.

The FHWA received no comments in response to the publication. Based on all the information available to the agency, FHWA concludes that there are no domestic manufacturers of motor and machinery brake systems (maximum torque 100 ft-lb, wheel size 8 inches) for rehabilitation of the bascule bridge in Port Clinton, Ohio.

In accordance with the provisions of section 117 of the SAFETEA-LU Technical Corrections Act of 2008 (PL 110-244), FHWA is providing this notice that a waiver of Buy America requirements is appropriate. The FHWA invites public comment on this finding for an additional 15 days following the effective date of the finding.

Comments may be submitted to FHWA's Web site via the link provided to the waiver page noted above.
